

## Upholstery Foam Cleaner

### Description

Versatile problem solver for cleaning all vehicle upholstery. Quickly and gently removes even stubborn dirt from seat upholstery and covers, and velour and carpets. Cleans down to the fiber and can be easily vacuumed off. Refreshes the upholstery color and does not leave behind any stain edges. Eliminates any unpleasant odors with its allergy-free citrus fragrance.

### Properties

- gently cleans upholstery, carpets, covers and textiles
- simple to use
- freshens up colors

### Technical data

Base	surfactants/foam stabilisers
Color / appearance	white
Form	aerosol, liquid
Odor	citrus
pH value	8,5
Water soluble	mixable

### Areas of application

For cleaning seat upholstery and covers, carpets, velour, etc. Can also be used in the household.

### Comment

In order to avoid any differences in color and contrast between treated and untreated areas, the application should always be carried out on the complete surface.

### Application

1. Shake well before use. 2. Then spray a thin coat of foam onto the surface to be cleaned. Do not treat only the contaminated area. Instead always treat the entire surface. 3. Allow to act for 2 – 5 minutes, depending on the degree of contamination. 4. Then rub in using brush in order to remove dirt. 5. Wipe off residues with Microfiber Cloth (part no. 1651) or, if very heavily contaminated, with a moist sponge (distilled water). Repeat the procedure until no more contamination is absorbed. 6. Then allow to dry and vacuum.

### Available pack sizes

300 ml Can aerosol 1539  
D
