Pro-Line JetClean Fuel System Cleaner

Description

Highly concentrated, ready-to-use cleaning fluid. Removes deposits on injection and intake valves, spark plugs and in the combustion chamber and prevents new deposits from forming. Improves engine running and optimizes the emissions values. Prevents starting difficulties, rough engine running, poor throttle response and loss of performance. Preserves and protects the entire fuel system against wear, deposits and corrosion. Clean engines use less fuel and reduce the pollutant emissions.

Properties

- removes carbon deposits from intake valves and combustion chamber
- increases operational reliability
- exact dosage
- quarantees low fuel consumption
- highly economical - reduces deposits
- reduces pollutant emissions
- cleans the injection system
- rapid cleaning
- assures precise atomization

Technical data

Base additives, special carrier fluid Color / appearance blue, clear Density at 15 °C 0,776 g/cm³

Regulation on Flammable АΙ

Liquids Class (Germany)

Form liquid Viscosity at 40 °C $<7 \text{ mm}^2/\text{s}$ Odor characteristic

-18 °C Flash point

Areas of application

For all gasoline engines. For direct application via JetClean devices. In a preventative fashion at each inspection, after repairs to the fuel system or for treating problems. Tested for use with turbochargers and catalytic converters.

Application

Ready for use for undiluted filling of the JetClean devices. A detailed application description is given in the instructions for use for the JetClean devices.

Available pack sizes

Available pack sizes

300 ml Can sheet metal 2907 GB

20691

300 ml Can sheet metal D-GB-CN

2523

500 ml Can sheet metal

D-GB-I-E

500 ml Can sheet metal 21991

MX

1 l Can sheet metal 5147
