

Roller Lubricant OW

Description

Roller Lubricant OW is a lubricant compound especially formulated for lubricating rollers on roller trains and plate and sheet rolling mills. Roller Lubricant OW reduces wear and cools the rollers.

Properties

- good lubricating effect
- minimizes wear
- cooling function

Technical data

Base	Additive, Öle, Seife, Festschmierstoffe
Density at 20 °C	~ 0,9 g/cm ³ DIN 51757
Form	liquid
Color / appearance	grey
Odor	characteristic

Areas of application

For lubricating rollers in steel and metal-processing plants.

Application

Supplied with a brush or metering systems.

Available pack sizes

5 kg Bucket plastic 3401
D-GB
