Pro-Line JetClean Gasoline System Cleaner Concentrate

Description

A concentrated cleaning fluid developed exclusively for use with the Pro-Line JetClean Plus device (part no. 5118). Safe with catalytic converters and GPF systems.

Properties

- removes undesirable residues
- minimizes wear
- protects expensive components against wear and corrosion
- care and protection
- ideal with turbochargers and catalytic converters

Available pack sizes

500 ml Can sheet metal 20312
USA-EN

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	Additive in Trägerflüssigkeit
Color / appearance	blue
Density at 68 °F	0,8 g/cm ³
Regulation on Flammable Liquids Class (Germany)	A II
Flash point	104 °F
Odor	characteristic
Viscosity at 104 °F	<7 mm ² /s
Form	liquid

Areas of application

Suitable for use in all 4-stroke gasoline engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (GPF).

Comment

⚠ WARNING: Cancer - www.P65Warnings.ca.gov

Application

Mix the content of one can (500 mL) with 4.5 Liters (1.2 gal.) high quality, lead-free premium grade gasoline in a clean and suitable canister. Fill the mixture of cleaning agents in the tank of the JetClean device. To keep clean and protect the fuel system after the JetClean treatment we recommend to add LIQUI MOLY Jectron into the fuel tank of the vehicle as preventive maintenance. For further information or technical support please call 1-888-MOLYOIL (665-9645). For professional use only.
