

Leak Finder

Description

Locates leaks on tanks, pipes, hoses, screw joints, welding seams, flange connections and fittings. Water-soluble and biodegradable test fluid. The product's high air bubble formation guarantees economic and reliable application.

Properties

- high capacity
- biologically degradable
- miscible with water
- environmentally friendly
- forms air bubbles

Technical data

Active agent content	100 %
Foam stability	ca. 80 %
Corrosion according to DIN 30660	keine Korrosion an Eisen, Zink, Zinn, Kupfer, Messing, Aluminium
PE pipe according to DIN 30657	compatible
Seals according to DIN 30660	compatible
Lubricants according to DIN 3536	compatible
Odor	odorless
Density at 20 °C	1,01 g/ml
Form	liquid
Color / appearance	colourless

Areas of application

Motor vehicle maintenance:
Repair work on pneumatic brake systems for trucks, buses, commercial vehicles and welding equipment.

Industry:
Test and maintenance work on compressed air lines.

Medicine:
Testing operating room fittings for anesthetic apparatus and resuscitating equipment.

Household and sport:
Diving equipment and camping equipment.

Comment

Due to the wide range of possible applications and different materials, we recommend that you check the suitability of the product before using it by carrying out

sufficient tests yourself.

Application

Spray on the components to be tested in the appropriate quantity, e.g. with the aid of our Pump-Spray Bottle (Part no. 3316 or Part no. 29032).

Available pack sizes

5 l Canister plastic 4120
D-GB
