

Octane Booster

Description

Power pack tried and tested in motor sports that boosts the octane number of the gasoline and ensures that the engine can tap its full performance potential. Optimizes combustion immediately after addition and increases fuel efficiency. Significantly improves torque and acceleration, guaranteeing more driving pleasure. Ensures cleanliness in the fuel system and injection nozzles, thus preventing expensive repairs. Protects the exhaust valves of classic cars.

Properties

- increases the octane number
- improves combustion
- Ideally taps the performance potential of the engine
- improves acceleration
- cleans the fuel system
- cleans intake ports
- Compatible with all gasoline qualities

Technical data

Shelf life in original sealed container	60 months
Color / appearance	yellowish, clear
Odor	characteristic
Density at 20 °C	0,8108 g/ml
Flash point	>61 °C
Mineral oil content	89,01 %

Areas of application

For all cars with 2 and 4-stroke gasoline engines without particulate filter. Specially developed for racing use and therefore not recommended for public road traffic.

Application

200 ml sufficient for up to 50 l of fuel. Add the contents directly to the tank. Mixing takes place automatically. Note manufacturer's instructions!

Available pack sizes

200 ml Can sheet metal	21280
	D-NL
200 ml Can sheet metal	21610
	E-P
200 ml Can sheet metal	21616
	GB-GR-I
