

Diesel Smoke Stop Concentrate

Description

Diesel Smoke Stop Concentrate is a highly effective diesel fuel additive that delivers an important contemporary impact. The product reduces soot emissions from diesel engines by accelerated soot combustion. Diesel Smoke Stop Concentrate considerably improves the environmental compatibility of diesel passenger cars and trucks and prevents unpleasant odors and impairment of visibility. Diesel Smoke Stop Concentrate maintains engine performance and reduces the frequency of repairs.

Our information is based on thorough research and may be considered reliable, although not legally binding.

Properties

- no smell
- protects the environment
- improves the turbidity value
- keeps injection nozzles clean
- reduces soot emissions
- assures a clear view and safety
- does not contain heavy metals
- high engine cleanliness
- good corrosion protection
- self mixing
- prevents seizing and the injector needles from gumming up

Technical data

Base	additive mixture in carrier fluid
Color / appearance	brown, dark
Density at 15 °C	0,7981 g/cm ³
Flash point	>63 °C
Form	liquid
Viscosity at 40 °C	<7 mm ² /s
Odor	characteristic

Areas of application

For all diesel engines, for agricultural and forestry as well as stationary diesel engines.

Application

250 ml sufficient for 200 l of diesel fuel. Add the contents of the can directly before refueling.

Available pack sizes

250 ml Can sheet metal	2521
	D-E-P
250 ml Can sheet metal	7179
	GB-GR-I
205 l Black plate barrel	2519
	D-GB
