

Speed Tec Gasoline Concentrate

Description

Specially developed state-of-the-art fuel additive giving a tangible improvement in acceleration in the partial load range. Enhances the pleasure of driving due to optimized performance, a better engine start and smoother running.

Properties

- improves acceleration
- contains no organometallic compounds
- better drivability
- tested for the use with catalytic converters
- higher performance gain
- does not influence the octane number

Technical data

Base	Additiv-Kombination in Trägerflüssigkeit
Color / appearance	yellow, amber, clear
Density at 15 °C	0,9205 g/cm ³
Flash point	>61 °C

Areas of application

Suitable for all 2-stroke and 4-stroke gasoline engines. Tested for use with turbochargers and catalytic converters.

Application

Mix with the fuel. Specially developed for adding to large quantities of fuel, e.g. in underground tanks of filling stations. Mixing takes place automatically. Dosage 1:1,000.

Available pack sizes

20 l Canister plastic 8827
D-GB
