

Plastic Deep Treatment Lotion

Description

Cleans, maintains and protects all plastic and rubber components and freshens them up again. Penetrates deep into the plastic, ensures optimum long-term protection and ensures a silky matt sheen. Anti-static and dirt-repellent. Contains silicone.

Properties

- protects and cares for all plastics
- repels dust, dirt and water
- simple to use
- produces a matt-silk deep sheen
- for internally and externally mounted parts

Technical data

| | |
|--------------------|---------------------------------------|
| Color / appearance | white |
| Viscosity at 40 °C | 14,24 mm ² /s DIN 51562 |
| Flash point | >61 °C DIN ISO 2592 |
| Form | viscous liquid |
| Base | treatment preparation, silicones |
| Density at 20 °C | 0,96 g/cm ³ DIN 51757 |
| Odor | mild |
| pH value | 7,6 (20°C) |

Areas of application

For all plastic surfaces indoors and outdoors, e.g. on cars, boats, camping equipment, sports articles and much more.

Application

Clean the parts to be treated beforehand. Shake product vigorously before use. After this, apply to a soft cloth and rub in lightly. If necessary, rub again using a dry cloth. Regular application ensures an optimum appearance.
