

Marine Gloss Spray Wax

Description

Water-repellent, saltwater and UV-resistant wax with excellent cleaning properties that leave an outstanding shine. Quickly and easily removes light soiling and greasy contaminants without leaving scratches. The protective layer left behind smooths out scratches and protects the paint from the weather.

Properties

- outstanding sea and salt water resistance
- cleaning and sealing in a single process
- very water-repellent
- can be applied without scratching
- simple to use
- extremely high UV resistance
- increases shine

Technical data

Base	waxes
Form	liquid, aerosol
Color / appearance	beige
Odor	characteristic
Processing temperature	10-25 °C

Areas of application

An outstanding product for quickly sprucing up paintwork. Optimum sealing properties on paintwork (e.g. GFRP and gelcoat). Also suitable for imitation leather and chrome elements.

Application

Its quick and easy application minimizes the effort required. Clean and dry heavily soiled surfaces first. Shake product vigorously before use. Apply thinly and evenly onto the paint surfaces. Only treat one section at a time. After leaving to air for a short time, clean and polish surfaces with a soft cloth or a microfiber cloth (item no. 1651). If necessary, use a dry cloth for polishing. Cellulose or paper towels are not suitable for polishing or re-polishing.
