

Soft Top Cleaner

Description

Quickly and gently frees soft tops from all common contaminants such as oil and grease residues, soot, bird droppings, insect remains, road grime, etc. Does not attack plastics made of polycarbonate and rear windows made of PVC, even if used frequently. Anti-static components decrease the electrostatic attraction of dirt particles, reduce their adhesion and make it easier to remove them.

Properties

- antistatic and dirt repellent
- excellent cleaning effect
- freshens up colors
- does not attack plastics, rubber, glass, paints and textiles
- protects against premature weathering

Technical data

Form	liquid
Color / appearance	colourless
pH value	10 (20°C)
Solubility	soluble in H ₂ O
Flash point	n.a. DIN ISO 2509
Density	1,015 (20°C) g/cm ³ DIN 51757
Base	Surfactants, phosphate, glycol, preservatives

Areas of application

For all convertible soft tops made of fabric and plastic.

Application

1. Spray uniformly and thinly onto the surface to be cleaned and rub in with the Car Washing Sponge (part no. 1549) or a soft brush using light pressure. 2. Rinse parts with clean water. 3. Repeat the process until the desired result has been achieved. 4. Let dry completely, after which we recommend applying the Fabric Impregnation in order to maintain the finish for longer. Note: Then thoroughly clean the entire vehicle in order to remove any residue of the cleaner!

Available pack sizes

500 ml Spray bottle plastic 1593
