

Cockpit Bright

Description

Cockpit Bright is a high-lubricant, ageing resistant, silicone-based car care product dissolved in chlorine-free solvent which has been formulated for broad application on motor vehicles.

Properties

- high resistance to aging
- good water resistance
- regenerates plastic
- insulates
- impregnates
- neutral behavior on rubber and plastics
- good lubricating effect on rubber and plastic components
- optimum penetration properties
- prevents immediate re-contamination
- does not resinify or become sticky

Technical data

Odor	characteristic
Base	silicones, surfactants
Propellant	propane, butane
Color / appearance	colourless
Form	aerosol, liquid

Areas of application

For care of dashboards, plastic coatings, bumpers, for squeaky and creaky dashboards and sluggish seat belts.

Comment

Safety suggestions

Spraying releases propane/butane and flammable solvent vapours. Make sure that there is sufficient ventilation during use and keep from sources of ignition.

Application

Spray thinly onto parts to be treated from the aerosol can and after a short drying time, rub with a soft rag. Because of the risk of slipping, not suitable for steering wheels, pedals, seat surfaces or gear lever knobs.

Available pack sizes

200 ml Can aerosol	1510
	D-GB-E-P

Available pack sizes

300 ml Can aerosol	7582
	D-RUS-UA
600 ml Can aerosol	1610
	D-GB-I-E-P
