

Cleaner and Thinner

Description

Solvent-based product for all degreasing and cleaning work. Especially recommended if solvents which may be physiologically harmful must not be used for safety reasons.

Properties

- does not attack plastics, paints and metals
- suitable for any type of degreasing work
- for cleaning heavily contaminated parts
- excellent solvent properties

Technical data

Boiling point	80 - 110 °C
Vapor pressure at 30 °C	~ 6,7 kPa
Odor	characteristisch
Base	Hydrocarbons
Color / appearance	colourless
Form	liquid
Density at 20 °C	~ 0,714 g/cm ³
Flash point	-20 °C ISo 1523 (Rapid Equilibrium, closed cup RECC)
missing translation	60 Monate
Recommended storage temperature	-40 °C

Areas of application

Suitable for universal use. Preferably as a cleaning agent for surfaces which will be treated afterwards.

Application

Can be applied using washing, immersion, spraying and flooding methods. For best results, spray larger parts and machines or wet them with a wide brush, rag or something similar and scrub them in the case of heavy contamination.

Refer to the safety data sheet for work notes!

Available pack sizes

1 l Can sheet metal 6130
