Base	silicone-oil emulsion, surfactants and glycols
Color / appearance	white
Propellant	DME, butane
Flash point	-41 °C
Odor	characteristic
pH value	7,5
Form	aerosol, liquid

Areas of application

For cleaning, maintaining and protecting tires. Do not use on hot, chrome-plated or magnesium rims. Not suitable for two-wheeled vehicles.

Application

Shake can vigorously before use. Then spray on the Tire Bright Foam in a thin, even layer and allow it take effect for a few minutes. Rinse off with water if necessary. After application, test brakes at a moderate speed as any silicone film on the brake discs must be removed for the brakes to operate to optimum effect again.
