Product information
Paint Polishing Cream

PI 26/01/31/2025

Description
Cleans, polishes and protects. For radiant gloss through carnauba wax. Offers outstanding protection against damaging environments and car wash systems. Evens out small hairline scratches and restores the finish gloss. Provides the paint with deep gloss. The original appearance of matt paintwork is easily restored. Its creamy consistency means sparing use.

Our information is based on thorough research and may be considered reliable, although not legally binding.

Properties
- radiant high gloss
- evens out light scratches
- easy to use
- excellent long-term protection
- protects against aggressive environmental influences

Technical data

Base	waxes, polishing pigments
Form	pastelike
Color / appearance	light brown
Odor	characteristic
Density at 20 °C	0,96 g/ml DIN 51757
Solubility in water	emulsifiable
Shelf life in original sealed container	60 months

Areas of application
For both new and slightly weathered colored and metallic paints. The original appearance of matt paintwork is easily restored.

Application
Before application, thoroughly clean the paint surfaces to be treated and dry them carefully. Remove Paint Polishing Creme from the can using a soft rag, polishing cloth or sponge and apply thinly and evenly using light pressure and circular motions. Only treat one section at a time. Allow Paint Polishing Creme to dry until it forms a matt coat. Then remove with a Microfiber Cloth (part no. 1651) and polish the surface to a high sheen. Do not use under strong sunlight or on warm paint surfaces. Protect against frost. Regular application gives the optimum results.
