

Exhaust Assembly Paste

Description

For quick, easy, gas-tight installation of slip-fit and flanged connections in exhaust systems. The paste provides long-lasting heat resistance and allows the connections to be disassembled without damage.

Properties

- simple to use
- high gas tightness
- simple to use without disassembly
- outstanding thermal resistance

Technical data

Base	sodium waterglass
Form	pastelike
Density	~ 1,71 g/cm ³
Thermal stability	~ 700 °C
Shelf life	2 years in its original container, well sealed, in a cool area free of frost
Color / appearance	grey
Odor	odourless

Areas of application

For gas-tight assembly of exhaust systems, tailpipe trim, screw and plug connections and exhaust pipe gaskets.

Application

The exhaust components to be connected must be free of rust, grease and dust. Apply the paste generously and push the parts together. If necessary, make the paste more pliable using water. Hardening is achieved thanks to the heat from the exhaust.

Available pack sizes

150 g Can sheet metal	2835 DA-EN-FI-NO-SV
150 g Tube plastic	3342 DE-EN-ES-IT-PT
