

Marine Fuel System Cleaner

Description

Highly effective combination of cleaning and preserving additives for 2-stroke and 4-stroke gasoline engines. Removes deposits on injection valves, intake valves, spark plugs and in the combustion chamber and prevents new deposits from forming. Improves the engine running, eliminates starting problems and rough engine running. Preserves and protects the entire fuel system against wear, deposits and corrosion. Clean engines consume less fuel and emit fewer pollutants. Protects against the negative effects of water in fuel systems.

Properties

- removes deposits from entire fuel system
- removes carbon deposits from intake valves and combustion chamber
- cleans the injection system
- saves fuel and reduces pollutant emissions
