

High Performance Gear Oil (GL4+) SAE 75W-90

Description

High-performance, fully synthetic high-pressure gear oil for high-load manual, auxiliary, transaxle and hypoid transmissions, where a lubricant complying with API GL-4+ is required. High-quality synthetic base oils and modern additive technology guarantee a wide application range as well as optimum transmission lubrication under extreme conditions. The low-viscosity characteristics of this gear oil make it also suitable where shifting difficulties exist (e.g. stiffness or noise generation).

Properties

- excellent viscosity/temperature properties
- outstanding seal compatibility
- excellent resistance to aging
- excellent wear resistance
- high pressure-absorption capability
- wide viscosity range
- reduces gearshift resistance
- excellent corrosion protection
- reduces transmission noise
