

Petrol Clean & Boost

Description

Petrol Clean & Boost consists of a combination of ash-free, self-lubricating active agents which have been formulated according to the latest fuel and additive technology. This product is characterised by its outstanding cleaning and material protection properties.

Properties

- keeps the fuel system clean
- highly economical
- reduces the risk of knocking combustion
- tested for turbochargers and catalytic converters
- prevents the build-up of deposits
- reduces residue
- normalizes gasoline consumption and exhaust emissions

Technical data

Base	Additive mixture in carrier fluid
Color / appearance	light brown
Density at 15 °C	0,825 g/cm ³
Flash point	>63 °C
Odor	characteristic
Form	liquid
Viscosity at 40 °C	<7 mm ² /s

Areas of application

Suitable for all gasoline engines – as a preventative measure or to solve problems. Tested safe with catalytic converters and turbochargers.

Application

Add to fuel tank using a funnel at a ratio of 200 ml per 60 litres of fuel, in every tank or as required. The product mixes with the gasoline automatically.

Available pack sizes

1 l Can sheet metal	7714
	GB-AUS
