Odor	characteristic
Form	aerosol
Solubility in water	mixable
Flash point	n.a.
Shelf life in original sealed container	24 Monate

### Areas of application

For cleaning split air conditioning systems for the home.

### Application

**Portion pack:** One can will treat one air conditioning system. If the manufacturer of the air conditioning system provides a cleaning service recommendation, this recommendation must be observed. If possible, spray the cleaning fluid directly onto the evaporator surface.

### LIQUI MOLY recommended use:

- Check to make sure that the condensation water outlets are not blocked.
- Switch the air conditioning system off before cleaning and isolate it from the power supply.
- Remove the grille and spray the surface of the evaporator with the fluid. Excess fluid will run off in the normal air conditioning system process.
- Allow the air conditioning system to dry for approx. 10 minutes after cleaning. It can then be started up

again.
