

Polishing Microfiber Cloth

Description

High-quality, long-fiber, particularly fluffy microfiber cloth for lint-free polishing out and wiping off of care products and polishing residues. Reliably absorbs wax and polish residues and ensures a brilliant deep sheen without streaks, smudges or cloudiness. Borderless due to a special weaving process to avoid scratches on sensitive surfaces. Washable and therefore extremely long-lasting.

Areas of application

For polishing out and wiping off care products and polishing residues on all sensitive surfaces such as paintwork, Plexiglas, foiling, plastic, stainless steel or even sealed wood. Also very well suited as a drying aid after washing the vehicle.

Comment

Wash cloth separately at up to 95 °C without fabric softener. Do not use detergents in the pre-wash cycle. Do not use optical brighteners or substances containing chlorine. Always pre-wash with cold water.

Application

The surface to be treated must be free of coarse dirt. Polish out care products or wipe off polish residues with the dry microfiber cloth using circular movements and light pressure. After use, wash cloth separately at up to 95 °C without fabric softener.
