

Jectron Fuel Injection Cleaner

Description

A combination of additives to clean and maintain the fuel system of port injected and carbureted gasoline engines. Cleans injectors, the combustion chamber and protects against corrosion. Restores proper fuel atomization and improves engine efficiency. Regular use keeps the fuel system in perfect working order.

Properties

- better drivability
- removes carbon deposits from intake valves and combustion chamber
- excellent corrosion protection
- ideal with catalytic converters
- normalizes fuel consumption and exhaust emissions
- cleans the injection system
- assures precise atomization

Available pack sizes

300 ml Can sheet metal	2007 USA-EN
300 ml Can sheet metal	7711 CANADA-EN-F

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	additive mixture in liquid carrier
Color / appearance	light yellow, clear
Regulation on Flammable Liquids Class (Germany)	A II
Flash point	>61 °F
Pour point	-49 °F
Form	liquid
Odor	characteristic
Viscosity at 104 °F	<7 mm ² /s
Density at 59 °F	0,765 g/cm ³

Areas of application

Suitable for use in all 4-stroke gasoline engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (GPF).

Comment

Application

Contents (300 mL) is sufficient for 25–75 Liters (7 gal. to 20 gal.) fuel. Regular use keeps injection system in perfect working order and gives lowest exhaust emissions. Smoother idling, better throttle response. Injection Cleaner can be mixed with fuel at any time since mixing is spontaneous.
