

Motorbike Cleaner

Description

Special motorbike cleaner. More than 80% biodegradable (according to the German detergent and cleaning agent law). Cleans persistent dirt gently but thoroughly and quickly. With corrosion inhibitor. Free of phosphates and solvents which pollute the environment. Fast acting. Runs off without leaving streaks.

Properties

- high washing and cleaning efficiency
- fast acting
- releases dirt, oil and grease residues
- biologically degradable
- protects the environment
- rapid and effective cleaning

Technical data

Density at 68 °F	approx. 1.075 g/cm ³ (agent) g/cm ³
Base	surfactants; water-soluble solvent
Biodegradable	more than 80 % according to WMG
Color / appearance	beige
Odor	perfumed
pH value	8,2 (20°C)

Areas of application

For cleaning motorbikes, bicycles and scooters etc.

Application

Spray thinly and evenly on motorbike, bicycle or scooter only when cool. Use a brush on places which are heavily contaminated. Leave Motorbike Cleaner to act for 5-15 minutes depending on contamination and rinse thoroughly with a jet of water. When dry, wipe with a soft cloth. For parts which have been repainted, check paint for compatibility (spotting or lifting) on somewhere out of sight. If used properly however, paint and plastic will not be damaged. When cleaning, the local regulations of the water management authority must be followed.

Do not use on motorbikes with magnesium rims.
