

Pro-Line Super Diesel Additive K

Description

A concentrated blend of additives to clean and maintain all common diesel fuel systems. Prevents corrosion, increases lubrication thus reduces fuel pump and injector wear. Increases Cetane value for improved engine efficiency and lowest emissions. Regular use keeps the fuel system in perfect working order and minimizes operating costs.

Properties

- excellent cleaning effect
- keeps the fuel system clean
- prevents seizing and injector gumming
- guarantees consistently good engine performance
- increases cetane number
- guarantees optimum combustion
- outstanding corrosion protection
- protects injection system components from wear
- highly economical
- prevents expensive repairs
- ideal with particulate filters and catalytic converters
- prevents build-up of deposits

Available pack sizes

20 l Canister plastic 22245
USA-EN

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	additive mixture in carrier fluid
Color / appearance	yellowish brown
Density at 59 °F	0,87 g/cm ³
Hazard class as per German VbF	A III
Flash point	145 °F
Pour point	-32 °F

Areas of application

Suitable for use in all diesel engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (DPF).

Comment

⚠ WARNING: This product can expose you to chemicals including naphthalene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov

Application

To be added directly into the fuel tank, ideal for long-term use with every refueling. Dosage is up to 1:500, so 1 Liter is sufficient for up to 500 Liters (132 gal.) of fuel. The product mixes with the fuel automatically.
