

Pro-Line Gasoline System Cleaner

Description

An effective mixture of additives used to clean and maintain fuel systems of injected or carbureted gasoline engines. Cleans injectors and the combustion chamber, restores proper fuel atomization and improves engine efficiency. Suitable for use as problem solver and for preventive maintenance.

Properties

- removes carbon deposits from intake valves and combustion chamber
- increases operational reliability
- exact dosage
- guarantees low fuel consumption
- optimizes economical use
- reduces pollutant emissions
- cleans the injection system
- cleans and maintains
- assures precise atomization

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	additives, special liquid carrier
Color / appearance	light yellow, clear
Form	liquid
Odor	characteristic
Density at 59 °F	0,82 g/ml
Flash point	>63 °F
Viscosity at 104 °F	<7 mm ² /s

Areas of application

Suitable for use in all 4-stroke gasoline engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (GPF).

Comment

⚠ WARNING: Cancer- www.P65Warnings.ca.gov

Application

To be added directly into the fuel tank. As a preventive measure, add during each inspection, after repairs on the fuel system and after each Jet-Clean cleaning operation. The product mixes with the fuel automatically. Contents (500 mL) is sufficient for 25-70 Liters (7 gal. to 18 gal.) fuel.

Available pack sizes

500 ml Can sheet metal	2030 USA-EN
500 ml Can sheet metal	7986 CANADA-EN-F
