DPF Pressurized Tank Spray Gun

Description

Powder-coated aluminum tank with commercially available compressed air connection and non-return valve. Filling amount 1 liter (0.26 gal). The material quantity can be specified exactly by means of a control valve. The air fed spray stream causes the sprayed material to be very finely atomized.

Areas of application

For the application of Pro-Line Diesel Particulate Filter Cleaner and Pro-Line Diesel Particulate Filter Purge with the specially developed DPF-Probe with 5 interchangeable tips (part no. 7945)

Comment

CAUTION: Depressurize After applying pressure vessel and completely. Gun should not be stored with material in the container.
