

DPF Pressurized Tank Spray Gun

Description

Powder-coated aluminum tank with commercially available compressed air connection and non-return valve. Filling capacity 1 liter. By means of a control valve, the amount of liquid applied can be manually adjusted. The air fed spray stream atomizes the liquid very finely.

Areas of application

For the application of Pro-Line Diesel Particulate Filter Cleaner and Pro-Line Diesel Particulate Filter Purge with the specially developed DPF-Probe with 5 interchangeable tips (part no. 7945)

Comment

CAUTION: Depressurize After applying pressure vessel and completely. Gun should not be stored with material in the container.
