**Areas of application**
For hydraulics in vehicles from various manufacturers such as ride-height control, hydropneumatic suspension, steering systems, shock absorbers, etc. Use in accordance with the specifications prescribed by the aggregate or vehicle manufacturer.

**Application**
The instructions from the unit or automobile manufacturer must be followed. Central hydraulic system oil is also suited for refilling systems in which traditional ATF oils are used. Optimal effectiveness, however, is only possible when the product is used by itself (i.e. no mixing).
