

Product information

Central Hydraulic System Oil 2400

PI 16/16/05/2019

Description

Specially developed hydraulic oil for PSA group vehicles (Citroën and Peugeot). The combination of selected mineral base oils and high-performance additives enables considerably improved low-temperature characteristics. Excellent operation of assemblies and systems is therefore guaranteed under all operating conditions.

Properties

- very good low-temperature properties
- high wear resistance
- optimum stability to aging
- outstanding corrosion protection
- excellent viscosity/temperature properties

Specifications and approvals:

ISO 7308

LIQUI MOLY also recommends this product for vehicles or assemblies for which the following specifications or original part numbers are required:

LHM-Plus • Peugeot Citroen (PSA) B71 2710

Technical data

Density at 15 °C	0,870 g/cm ³ DIN 51757
Viscosity at 40 °C	20,6 mm ² /s ASTM D 7042-04
Viscosity at 100 °C	6,4 mm ² /s ASTM D 7042-04
Viscosity at -40 °C	<20000 mPas DIN 51398
Viscosity index	300 DIN ISO 2909
Flash point	120 °C DIN ISO 2592
Pour point	-66 °C DIN ISO 3016
Color / appearance	grün

Areas of application

For hydraulic systems, e.g. level control, hydraulic brakes, steering systems, etc. in vehicles developed by the PSA Group (Peugeot and Citroën). Can be mixed with older, mineral-based LHM formulations. Commercial vehicles also sometimes require a lubricant with this specification for the lifting equipment of trailing axles and cab tilting equipment.

Application

The specifications and instructions from the assembly or vehicle manufacturer must be followed! This oil can also be used for refilling in systems that are filled with original oil from the manufacturer. Optimum effectiveness, however, is only possible when the product is used on its own (i.e. no mixing).

Available pack sizes

1 l Can plastic	3666 D-GB-I-E-P
1 l Can plastic	20979 GB-DK-FIN-N-S
