

Motorbike Chain Lube

Description

Fully synthetic chain grease. Extremely adhesive and water resistant. Excellent creeping and lubrication behavior. Especially suitable for high-speed chains. Reduces chain elongation and provides long chain service life. Optimal effectiveness only with unmixed use. We recommend cleaning the chain with Motorbike Chain Cleaner (part no. 1602) before use.

Properties

- reduces chain elongation
- friction and wear reducing
- resistant to acceleration forces
- excellent adhesion
- especially cold, hot and splash-water resistant
- highest load-carrying capacity
- excellent penetration action
- outstanding corrosion protection

Technical data

Base	Syntheseöl, Additive / Synthetic oil, additives
Color / appearance	klar, gelblich / clear, yellowish
Operating temperature range	-22 bis 356 -22 to 356 °F
Odor	charakteristisch / characteristic
Form	flüssig, aerosol / liquid, aerosol
Density at 68 °F	0,831 g/ml
Flash point	14 °F

Areas of application

Initial and maintenance lubrication of power train chains. Especially suitable in dusty, dirty and corrosive atmospheres. For highly-stressed and high-speed chains with and without O-rings.

Application

Carefully clean chain with solvent such as Motorbike Chain Cleaner (part no. 1602). Apply by spraying. The lubricant attains its final consistency and adherence once the solvent has rapidly evaporated.
