

Product information

Motorbike Chain Lube white

PI 28/23/03/2021

Description

White, full synthetic special grease. For optimal lubrication through visible application on the chain. Cold, heat and spray resistant. Very good adhesion and wear protection. Reduces chain elongation and extends the service life of the chain. Good creeping properties and good corrosion protection. The 50 ml can can be refilled with the 400 ml can.

Properties

- excellent penetration action
- especially cold, hot and splash-water resistant
- outstanding corrosion protection
- excellent adhesion
- friction and wear reducing
- resistant to acceleration forces
- highest load-carrying capacity
- reduces chain elongation

Available pack sizes

50 ml Can aerosol	1592
	D-GB
400 ml Can aerosol	1591
	D-GB-E-P

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	Syntheseöl, Additive / synthetic oil, additives
Color / appearance	weiß / white
Operating temperature range	-30 bis +180 / -30 to +180 °C kurzzeitig 200 / short term 200 °C °C
Water resistance at 90 °C	0 DIN 51 807
Form	aerosol, flüssig / aerosol, liquid
Odor	charakteristisch / characteristic
Flash point	-60 °C

Areas of application

For all highly-stressed and high-speed motorcycle chains with and without O/X-rings.

Application

We recommend cleaning the chain with Motorbike Chain and Brake Cleaner (Part No. 1602) before use. Spray chain with Motorbike Chain Spray until white. The lubricant attains its final consistency and adherence once the solvent has evaporated.
