

Gloss Polish

Description

Due to its special composition, Gloss Polish easily evens out light scratches and freshens up the paint surface in a single process. The original gloss is easily restored to matt and weathered paintwork. After treatment, the paint surface clearly shows increased resistance to harmful environments.

Properties

- with carnauba wax
- protects against aggressive environmental influences
- extremely easy to use
- radiant high gloss
- excellent long-term protection
- suitable for machine polishing

Technical data

Color / appearance	grau / grey
Form	viskos / viscous
Odor	charakteristisch / characteristic
Base	pflanzliche und synthetische Wachse / plant and synthetic waxes
pH value	8,0
Density at 20 °C	0,9 g/cm ³
Flash point	76 °C
Shelf life in original sealed container	30 months

Areas of application

Specially developed for coloured paints in matt to weathered condition. The original gloss and appearance is easily restored to matt and weathered paintwork. Suitable for machine polishing. **Do not use on matt paints!**

Application

First, thoroughly clean the surfaces to be polished and dry them carefully. Shake vigorously before use and pour onto a soft rag, polishing cloth or sponge. Apply thinly and evenly to the paint surface using light pressure and circular movements. Only treat one section at a time. Allow Gloss Polish to dry until it forms a matt coat. Remove this and polish using a clean, dry cloth. **Do not use under direct heat or on warm paint surfaces.** Regular application gives the optimum care. Between treatments, treat the paint with Liqui Moly Hard Wax.
