Density	1 g/cm ³ DIN 51757
Solubility	vollständig in Wasser löslich / completely soluble in water
Base	Farbstoffe, Silikone / dyes, silicones
Color / appearance	schwarz / black
Form	flüssig / liquid
Viscosity	35 - 50 mPas

Areas of application

Used especially for treating and protecting all plastics on the vehicle exterior.

Application

Where contaminated, clean parts to be treated beforehand. Shake "Like new" Plastic Care vigorously before use. Next, pour onto a soft cloth, polishing cloth or pad and apply thinly and evenly under light pressure. Allow product to dry and then rub in or polish. If applied to neighbouring components, remove immediately using a damp cloth. Do not use on the vehicle interior or on soft plastics. Regular application will result in the optimum care and appearance.
