

Product information

2K A/C System Cleaner

PI 40/01/04/2020

Description

The cleaning fluid is comprised of two active components that are mixed for activation directly before use. Removes unpleasant odors from air conditioning systems without complicated removal work. Leaves behind a pleasant fragrance. To apply the cleaner, we recommend our A/C System cleaning gun (part no. 4090). Only for professional use.

Properties

- increases ride comfort
- water-repellent protective film
- removes musty smells
- assures fresh, clean air

Technical data

Base	Reinigungslösung und Duftstoff / cleaning solution and odorous substance
Color / appearance	farblos / colourless
Solubility in water	mischbar / mixable
Density	1,0 g/cm ³
Flash point	n.a.
Shelf life in original sealed container	24 months

Areas of application

For cleaning air conditioning systems in cars, commercial vehicles and private households.

Application

Before use, mix 2x fragrance in a sealed edge bag with 1 l of 2K A/C System Cleaner. The A/C system cleaner is thus ready for use and can be sprayed directly onto the surface of the evaporator with our A/C system cleaning gun (part no. 4090). Use 1 l of cleaning fluid per vehicle.

Please note the model-specific application notes of the equipment or vehicle manufacturer. If none are available, you will find application notes for various vehicle types on our website.

Only use in well ventilated rooms. For an optimum result and lasting effect, we recommend that you repeat the cleaning process at least every 12 months and replace the interior filter.

Comment

Shelf life: 2 years, if the components are not mixed. After mixing, store between 10 – 30 °C and use up within one month.

Available pack sizes

1 Piece Canister plastic	9001 D-GB-F-E-P-ARAB-RUS-TR
1 Piece Canister plastic	20001 USA (-EN-)
1 Piece Canister plastic	20841 D-GB-KOREA
