

Pro-Line Automatic Transmission Cleaner

Description

Highly effective cleaning fluid designed to dissolve deposits and residues in automatic transmissions. For optimum shift performance, thus extending the transmission service life. These highly effective detergent and dispersant additives in association with the carrier fluid have been tested in the laboratory and in practical field trials for their ability to dissolve sludge and lacquer formers.

Properties

- gentle and rapid cleaning
- assures optimum shifting performance
- does not attack rubber and plastic seals
- optimizes economical use
- easily dissolves stubborn dirt

Technical data

Base	Additiv, Naphthenbasisches Spezialöl / additive, naphtha-base special oil
Viscosity index	204
Viscosity at 104 °F	58,0 mm ² /s
Viscosity at 212°F	11,8 mm ² /s
Form	flüssig, liquid
Odor	charakteristisch / characteristic
Density at 59 °F	0,885 g/ml

Available pack sizes

1 l Can sheet metal	20224
	USA AND CANADA (-EN- F-)

Our information is based on thorough research and may be considered reliable, although not legally binding.

Areas of application

Suitable for all kind of automatic transmissions. 300 ml is sufficient for 6 - 9 liters (6.34 U.S. QT-9.51 U.S. QT) of ATF.

For professional repair shop use only.

Application

Add Pro-Line Automatic Transmission Cleaner to the transmission fluid at operating temperature and let the engine idle for around 10 minutes with the vehicle lifted up. Shift all gears once or twice. Switch off the engine and change oil and filter. For optimum effectiveness we recommend to apply using the LIQUI MOLY Gear Tronic (part no. 7917).
