

Product information

Gear Tronic Test Strip

PI 4/26/02/2020

Description

Automatic transmissions are subject to very high loads and are placed under extreme stress. That is why many automatic transmissions are cooled in the engine's cooling system. No coolant must be allowed to get into the transmission oil, otherwise the transmission will be damaged. The test system indicates if there is water in the oil.

Areas of application

A document for recording coolant in the transmission oil.

Available pack sizes

1 Piece Carton	50311
