

Product information

Truck Series DPF Protector

PI 22/21/02/2019

Description

Reduces the build-up of soot particles and prolongs the service life of diesel particulate filters (DPF). Protects the diesel particulate filter and acts as a regeneration aid for DPF systems. Guarantees the best possible combustion and reduces the formation of soot. Especially suitable for short-distance and city vehicles.

Properties

- protects the diesel particulate filter
- regeneration aid for diesel particulate filters
- especially suitable for short trips and city vehicles
- guarantees optimum combustion
- reduces soot emissions

Technical data

Base	Additiv-Kombination in Trägerflüssigkeit / additive combination in carrier liquid
Color / appearance	schwarz, braun, rot / black, brown, red
Density at 15 °C	0,7989 g/cm ³
Flash point	>63 °C
Viscosity at 40 °C	<7 mm ² /s
Odor	charakteristisch / characteristic
Form	flüssig / liquid

Areas of application

Suitable for diesel vehicles with a diesel particulate filter (DPF) if they are not already fitted with an electronically controlled additive tank system for filter regeneration.

Application

Can is sufficient for 90-115 l of diesel fuel. Add every 2,000 km before filling up.

Comment

Avoid overdosing.

Available pack sizes

500 ml Can sheet metal 20999
GB-F-E-ARAB
