Marine Gasoline Stabilizer Shooter

Description

Provides long-term protection against fuel aging and oxidation. Protects fuel system from corrosion and prevents problems during long term storage. When added to gasoline it uses its organic content to stabilize the fuel.

Properties

- protects fuel against oxidation and aging
- cost-effective due to exact dosage
- has a lasting effect
- simple to use

Technical data

| | |
|--------------------------------|---|
| Base | Additiv-Kombination in Trägerflüssigkeit / additive mixture in carrier liquid |
| Color / appearance | blau / blue |
| Odor | charakteristisch / characteristic |
| Form | flüssig / liquid |
| Density at 59 °F | 0,822 g/cm ³ |
| Hazard class as per German VbF | A III |
| Flash point | >142 °F |
| Viscosity at 104 °F | <7 mm ² /s |

Available pack sizes

200 ml Can sheet metal 25100
USA (-EN-)

Our information is based on thorough research and may be considered reliable, although not legally binding.

Areas of application

Suitable for all 2- stroke and 4-stroke engines. Safe with catalytic converters.

Application

Contents (200 mL) is sufficient for 50–70 Liters (13 gal. to 18 gal.) fuel. Add to fuel and let the engine idle for approx. 10 minutes.
