

Leather Care

Description

Cleans, maintains and protects smooth and imitation leather and preserves the structure, grip and elasticity. Penetrates deeply into the leather, makes it soft and supple, smooths older as well as slightly worn leather surfaces and gives them a silky matt shine. Regular application enhances the appearance of the leather, prevents premature fading and extends the life of the material. Without dyes.

Properties

- keeps leather supple
- protects leather components from cracking
- excellent long-term protection

Technical data

Density	1,01 g/ml
Color / appearance	milky, white
Odor	characteristic
Frost resistance	+4 °C
Shelf life in original sealed container	24 months

Areas of application

For all leather or imitation leather surfaces in the automotive sector, leather suits and leather components in the home, for hobbies and at work. Not suitable for suede leather.

Application

1. Leather surfaces which are contaminated must be cleaned with Car Interior Cleaner before treatment and allowed to dry. 2. Shake well before use. 3. Then pour Leather Care onto a soft cloth or Microfiber Cloth (part no. 1651) and, using circular motions, apply thinly and uniformly under light pressure. 4. Allow to act for a brief period and then polish out with a dry section of the Microfiber Cloth. Note: Not suitable for suede leather! With perforated leather, make sure that the liquid does not penetrate the leather. Test for compatibility in an inconspicuous place before large-scale application. Do not use on motorcycles!
