

## Motorbike Chain and Brake Cleaner

### Description

Special cleaner with a combination of selected solvents. For the rapid, efficient cleaning and degreasing of structural components on two-wheelers.

### Properties

- high proportion of active components
- absolutely free of chlorine
- optimum penetration capacity
- low surface tension
- dissolves resin and tar-type residues
- controlled evaporation free of residues
- leaves no residues
- optimizes economical use
- removes oil and grease-based contaminants

### Technical data

Color / appearance	colourless
Base	solvent-mixture, acetone-free
Form	liquid, aerosol
Propellant	CO <sub>2</sub>
Shelf life in original sealed container	30 months

### Areas of application

For cleaning chains with and without O/X-rings on two-wheelers and ATVs as well as drum and disk brake systems, their brake pads and components as well as brake calipers.

### Comment

**Do not lay rubber components in a container with Cleaning Fluid to clean them as they may be attacked.**

### Application

Place a box or rag under the parts to be cleaned. Spray dirty chains with Motorbike Chain and Brake Cleaner and let it run off. After the solvents have evaporated (approx. 10 min), the chain will be clean and free of grease and ready to be coated with Motorbike Chain Lube (part no. 1508) or Motorbike Chain Spray White (part no. 1591). Do not spray onto plastics. □

**Important:** With painted brake calipers and components as well as plastics, check for compatibility on a hidden area before application.

### Available pack sizes

### Available pack sizes

500 ml Can aerosol	1602 D-GB-E-P
500 ml Can aerosol	5964 D-F-I-NL
500 ml Can aerosol	20742 GB-DK-FIN-N-S
500 ml Can aerosol	20938 JP
