

Tire Bright Foam

Description

Maintains and protects tires in a single operation. Optically enhances weathered tire walls and gives them back their original appearance and suppleness. Guarantees an all-round beautiful shine.

Properties

- easy to use
- care and protection
- simple to use
- guarantees a beautiful shine

Technical data

Base	silicone-oil emulsion, surfactants and glycols
Color / appearance	white
Propellant	DME, butane
Odor	characteristic
pH value	7,5
Form	aerosol, liquid

Areas of application

For maintaining tires.

Application

1. Shake well before use. 2. Then spray on the Tire Bright Foam in a thin, even layer and allow it take effect for a few minutes. If necessary, remove the foam residues with a Microfiber Cloth (part no. 1651). 3. After application, test brakes at a moderate speed as any silicone film on the brake disks must be removed for the brakes to operate to optimum effect again. Note: Do not apply to tire treads! Do not use on two-wheeled vehicles! Do not use on chrome-plated or magnesium rims! Do not spray onto hot surfaces or use in direct sunlight.
