Product information
Motorbike Chain Lube

PI 56/10/23/2026

Description

Fully synthetic chain grease, extremely adhesive and water resistant. Excellent creep ability and lubrication behavior. Extremely effective and lasting on high-speed chains. Provides increased chain life and reduced elongation.

Properties

- friction and wear reducing
- highest load-carrying capacity
- excellent adhesion
- outstanding corrosion protection
- resistant to acceleration forces
- reduces chain elongation
- especially cold, hot and splash-water resistant
- excellent penetration action

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	Synthetic oil, additives
Color / appearance	clear, yellowish
Operating temperature range	-22 bis +356 -22 to +356 °F
Odor	characteristic
Form	liquid, aerosol

Areas of application

Fully synthetic formulation for initial lubrication or maintenance of drive chains. Excellent for use in dusty, dirty and corrosive operating conditions. For high load- and high-speed chains with and without O/X-rings.

⚠ WARNING: This product can expose you to chemicals including n-hexane, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

Application

Use suitable chain cleaner before application. Spray Motorbike Chain Cleaner onto cleaned chain. Allow enough time for lube to penetrate and stabilize before use.

Available pack sizes

400 ml Can aerosol	20162 CAEN-CAFR
400 ml Can aerosol	20350 USEN
