

Marine Gasoline System Cleaner

Description

An effective mixture of additives used to clean and maintain fuel systems of injected or carbureted Marine gasoline engines. Prevents corrosion, cleans injectors and the combustion chamber, restores proper fuel atomization and improves engine efficiency. Suitable for use as problem solver as well as for preventive maintenance. Protects against the negative effects of too high proportion of water in fuel systems.

Properties

- removes deposits from entire fuel system
- removes carbon deposits from intake valves and combustion chamber
- cleans the injection system
- saves fuel and reduces pollutant emissions

Technical data

Base	additives, special liquid carrier
Color / appearance	light yellow, clear
Form	liquid
Odor	characteristic
Density at 59 °F	0,82 g/ml
Flash point	> 145 °F
Viscosity at 104 °F	< 7 mm ² /s

Areas of application

Suitable for use in all 4-stroke gasoline engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (GPF).

Comment

⚠ WARNING: Cancer- www.P65Warnings.ca.gov

Application

To be added directly into the fuel tank. As a prevent_x0002_ive measure, add during each inspection and after repairs on the fuel system. The product mixes with the fuel automatically. Contents (500 ml) is sufficient for 125 Liters (33 gal.) fuel, filling the dosage chamber once is sufficient for 12 liters (3 gal.) fuel.

Available pack sizes

500 ml Can sheet metal 20504
USA-EN
