

Microfiber Polishing Cloth

Description

High-quality, long-fiber, particularly fluffy microfiber cloth for drying after washing the vehicle and for wiping off care products and polishing residues. Reliably absorbs wax and polish residues and ensures a brilliant deep sheen without streaks, smudges or cloudiness. Borderless due to a special weaving process to avoid scratches on sensitive surfaces. Washable and therefore extremely long-lasting.

Properties

- can be washed at temperatures up to 95 °C
- excellent absorption of water and dirt
- extremely fluffy
- rimless
- Size 40 x 40 cm
- Material composition: 85 % polyester, 15 % polyamide, 420 GSM

Areas of application

For drying after washing the vehicle and wiping off care products and polishing residues on all sensitive surfaces such as paintwork, Plexiglas, foiling, plastic, stainless steel or even sealed wood.

Comment

Wash cloth separately at up to 95 °C without fabric softener. Do not use detergents in the pre-wash cycle. Do not use optical brighteners or substances containing chlorine. Always pre-wash with cold water. Dryer-safe at low temperatures.

Application

The surface to be treated must be free of coarse dirt. Spread out the cloth and wipe across the areas to be dried. Polish and wipe off care products with the dry microfiber cloth using circular movements and light pressure.
