

Truck Series DPF Protector

Description

Reduces the build-up of soot particles and prolongs the service life of diesel particulate filters (DPF). Protects the diesel particulate filter and acts as a regeneration aid for DPF systems. Guarantees the best possible combustion and reduces the formation of soot. Especially suitable for short-distance and city vehicles.

Properties

- protects the diesel particulate filter
- regeneration aid for diesel particulate filters
- especially suitable for short trips and city vehicles

Technical data

Color / appearance	red-brown
Odor	characteristic
Density at 20 °C	0,795 g/cm ³
Flash point	> 63 °C
Viscosity at 40 °C	1,3750 mm ² /s
Shelf life in original sealed container	36 months

Areas of application

For diesel vehicles equipped with a diesel particulate filter (DPF), provided they do not already have an electronically controlled additive tank system for filter regeneration. Suitable for HVO and XTL diesel fuels.

Comment

Avoid overdosing. Note: The color of the product may vary. This will not affect the quality or effectiveness of the product.

Application

One can of product is sufficient for 90–115 L of diesel fuel. Add every 2,000 km before filling up.

Available pack sizes

500 ml Can sheet metal 20999
