

Paint Restorer

Description

This polish powerfully cleans slightly to moderately weathered paint, smooths the surface and evens out moderate to severe scratches. Effortlessly removes flash rust and restores paintwork's original depth of color. Suitable for polishing machines.

Properties

- smooths the paint surface
- cleans slightly to moderately weathered paint
- removes moderate to severe scratches
- easy to polish
- suitable for polishing machines
- silicone-free

and may be considered reliable, although not legally binding.

Technical data

Base	wax, polymer, micro-polishing pigments
Form	viscous
Color / appearance	light pink
Odor	characteristic
Density	1,04 g/cm ³
Flash point	> 90 °C
Shelf life in original sealed container	30 months

Areas of application

Specifically for slightly to moderately weathered paint as well as for moderate to severe scratches and flash rust.

Application

1. Surfaces must be thoroughly cleaned with Car Wash Shampoo and carefully dried before treatment. 2. Shake well before use. 3. Then pour Paint Cleaner 2500 onto a Hand Polishing Sponge Hard (part no. 21782) or Microfiber Cloth (part no. 1651) and apply thinly and uniformly using circular motions. Note: Take care at joins in the bodywork as the product is very abrasive! 4. Only treat connected components in one step. 5. After application, polish off the polish residues with Paintwork Microfiber Cloth (part no. 21783). Recommendation: Then seal with Hard & Protective Wax to provide longer protection for the paint. Note: Do not use under direct heat or on hot paint surfaces!

Available pack sizes
