

Polish & Wax

Description

Freshens up paintwork. Cleans, polishes and preserves in one go. Effortlessly removes slight to moderate signs of wear and tear, leaves the original depth of color and an intense shine and provides long-lasting protection against harmful environmental influences thanks to the rain and dirt-repellent properties. Suitable for polishing machines.

Properties

- protects against aggressive environmental influences
- radiant high gloss
- suitable for machine polishing
- extremely easy to use
- excellent long-term protection

Technical data

Base	botanical and synthetic waxes, micro-polishing pigments
Form	viscous
Color / appearance	green
Odor	characteristic
Density	1,02 g/cm ³
Flash point	> 120 °C
Shelf life in original sealed container	30 months

Areas of application

Specifically for paint surfaces with slight and moderate signs of wear and tear. Do not use on matt paints!

Application

1. Surfaces must be thoroughly cleaned with Car Wash Shampoo and carefully dried before treatment. 2. Shake well before use. 3. Then pour Polish & Wax onto a Hand Polishing Sponge Soft (part no. 21781) or Microfiber Cloth (part no. 1651) and apply thinly and uniformly using circular motions. 4. Only treat connected components in one step. 5. After application, polish off the wax residues with Paintwork Microfiber Cloth (part no. 21783). Note: Do not use under direct heat or on hot paint surfaces! Do not use on matt paints!
