

Camping Care and Lubricating Spray

Description

Facilitates the assembly and disassembly of awnings and canopies in keder rails on RVs or motor homes. Expels water and moisture and does not resinify or become sticky. Thanks to the transparency, suitable for universal use for the assembly, lubrication, and maintenance of plastic and rubber parts. Silicone-free.

Properties

- suitable as a pulling aid for awnings and canopies in keder rails
- helps plastic zippers on awnings and canopies run smoother
- does not resinify or become sticky
- maintains and protects rubber and plastic parts
- suitable for paint-sensitive areas
- has very good UV resistance
- impressive thanks to its outstanding thermal stability
- silicone-free

Technical data

Base	mineral oil
Propellant	propane, butane
Odor	characteristic
Color / appearance	colourless
Form	aerosol
Operating temperature range	-10 to +120 °C

Areas of application

For awnings and canopies in keder rails as well as for assembly work on plastic and rubber parts. Also for the care and maintenance of plastic surfaces as well as for the lubrication of slide rails, window guides, window weatherstrips, plastic zippers, etc.

Application

1. If required, clean the surface to be treated first and let dry. 2. Shake well before use. 3. Then spray on thinly and evenly and briefly allow to air off. 4. Wipe off excess material with a dry cloth. For the optimum effect, we recommend application each time before the awning/canopy is drawn in.

Available pack sizes

200 ml Can aerosol 21808
