

Brake Pin Lube

Description

Special purpose brake caliper slide and pivot point lubricant for use during assembly and repair of brake calipers. Provides proper slide pin and pivot point movement for equalized brake pad wear and accurate function. Reduces brake noise thanks to vibration damping properties. Compatible with most rubber and plastics. Prevents dirt, debris and water intrusion for maximum corrosion protection and service life. Corresponds to OEM requirements for caliper pin greases.

Technical data

Form	paste, hard
Color / appearance	beige
Density	~0,97 g/ml
Odor	characteristic
Operating temperature range	-40 to +320 briefly to 374 °F
Dropping point	≥ 482 °F DIN ISO 2176
water-resistance	≤ 1 - 90 DIN 51807
Base oil	PAG
Thickener	lithium soap
Shelf life in original sealed container	60 months

Areas of application

Use to lubricate brake caliper slides, pivot points and caliper O-rings. Minute amounts in contact will not affect DOT 3, DOT 4 (LV/SL6) and 5.1 brake fluids.

Comment
