

Shine Polish

Description

Cleans and polishes paintwork with slight signs of wear and tear and helps to restore their original depth of color and brilliant deep shine. Repels rain and dirt for prolonged periods thanks to the practical beading effect, which protects the paint against harmful environmental influences. Suitable for polishing machines.

Properties

- with carnauba wax
- protects against aggressive environmental influences
- extremely easy to use
- radiant high gloss
- excellent long-term protection
- suitable for machine polishing

Available pack sizes

500 ml Bottle plastic 23111
RUS-PL-CZ-DK-S-FIN-N

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	botanical and synthetic waxes, micro-polishing pigments
Form	viscous
Color / appearance	grey
Odor	characteristic
Density	1,02 g/cm ³
Flash point	101 °C
Shelf life in original sealed container	30 months

Areas of application

Specifically for paint surfaces with slight signs of wear and tear or for the elimination of holograms. Do not use on matt paints!

Application

1. Surfaces must be thoroughly cleaned with Car Wash Shampoo and carefully dried before treatment. 2. Shake well before use. 3. Then pour High-Gloss Polish onto a Hand Polishing Sponge Soft (part no. 21781) or Microfiber Cloth (part no. 1651) and apply thinly and uniformly using circular motions. 4. Only treat connected components in one step. 5. After application, polish off the wax residues with Paintwork Microfiber Cloth (part no. 21783). Note: Do not use under direct heat or on hot paint surfaces! Do not use on matt paints!
